PANSY FARM

BRISTOL • PENNSYLVANIA

Simple Suggestions

For Growing Pansies

WE specialize in Pansy Plants and in Pansy Seed, and have had many years' experience in growing plants, and in selecting strains and varieties. Naturally, we have learned many things about Pansies and are convinced that anyone can succeed in Pansy culture, provided the soil is in good condition and certain simple rules are obeyed. Here is some information that we know will be helpful.

1. Select a sunny location, but if possible a place that will receive some shade in the afternoon. Good garden soil will be satisfactory, provided drainage can be furnished; if drainage is lacking, raise the bed about 4 inches above the surrounding soil, adding a considerable amount of sand and plenty of humus.
2. Cover the entire bed with 1 inch or more of well-rotted stable manure if it can be obtained. If you cannot secure stable manure, use pulverized sheep- or cow-manure. This covering should be turned under to a depth of 6 to 8 inches, letting it stand for several weeks, and dug back just before setting the plants.
3. If the soil on the bed is dry, it should be soaked thoroughly and allowed to dry off until it is not sticky; then pulverize it to a depth of about 6 inches, firm it, and set the plants not less than 4 inches apart—a greater distance if you have the space. They should be set only as deep as they were in the nursery, and the crown should not be covered. Water the bed after planting and give shade during the middle of the day until the plants are well rooted.
4. After the plants have become well established, at intervals of 6 to 8 weeks, give an application of pulverized sheep- or cow-manure, or commercial fertilizer, which must be used strictly according to directions. Pansies are heavy feeders and in order to have large and highly colored flowers the soil must be very rich.
5. After the ground is frozen hard, a light mulch of hay or straw will be required. Do not cover the bed so heavily that the plants cannot be seen, or they will be smothered. In our nursery we find that about the middle of December is the proper time to cover the plants.

LARGE SIZE

REGULAR SIZE

Please Study These Two Pictures

Both are much reduced from natural size, but they do tell a real story
of Pitzonka's Pansy Plants

The first picture shows the type, foliage, and the root-growth of our Large Pansy Plants. These Large Plants are a little older than the Regulars, are larger and better developed, and therefore bloom quicker and give large flowers from the start. The Large Plants are recommended for greenhouse Winter blooming.

One of Pitzonka's Regular Size Pansy Plants is pictured in the second illustration. These are younger plants, but are grown under exactly the same conditions and culture as the Large Plants. They will take slightly longer to develop but will give just as fine flowers when fully grown. All they need is a little more time.

PANSIES

Pitzonka's Giant-Flowering Mixture

Almost a half century ago we offered our Giant-flowering Mixture as our first mixture of Pansy Plants. Since that time we have been constantly working on its improvement to make it as desirable a mixture as can be produced in an all-purpose Pansy.

We now have what we consider a well-balanced mixture of high quality. The plants it produces are healthy, strong, and bloom freely. They are compact in habit of growth, an important feature for bedding Pansies, and prove equally as satisfactory for cut-flower purposes, as the stems are sturdy, stiff, and of good length. The flowers are veritable giants, with velvety, glistening petals. Colors range from delicate orchid and yellow to deep purple, blue, and red. Unquestionably, this Giant-flowering Mixture of Pansy Plants is the most desirable all-purpose variety obtainable.

**LARGE SIZE PLANTS, 90 cts. per 100, \$7.00 per 1000;
5000 or more, \$6.50 per 1000**

**REGULAR SIZE PLANTS, 60 cts. per 100, \$4.00 per 1000;
5000 or more, \$3.50 per 1000**

SEED, 1/4oz. \$2.25, 1/2oz. \$4.25, oz. \$8.00

DON'S WINTER-FLOWERING MIXED

Winter-flowering variety particularly adapted for growing under glass. Grows up to 3 feet tall and must be staked. Heavy stems up to 1 foot long support fine large blooms in an excellent range of colors.

TRANSPLANTED PLANTS, \$4.00 per 100, \$35.00 per 1000

PITZONKA'S CUT-FLOWER MIXTURE

A mixture of Swiss Giant types that we have selected for cut-flower purposes. Blooms of fine velvety texture, held well above the foliage, in shades of red, blue, yellow and other color combinations. Flowers 3 to 4 inches in diameter can be expected on stems 6 to 8 inches long. This is our own selection for greenhouse cut-flowers, and will do equally as well for cut-flowers out-of-doors.

LARGE SIZE PLANTS, \$1.50 per 100, \$10.00 per 1000

REGULAR SIZE PLANTS, \$1.00 per 100, \$7.00 per 1000

250 Pansy plants are sold at the 1000 rate

Recent PANSY *Novelties*

We cannot furnish less than 50 of any one variety

BERNA. A Swiss Giant introduction with large, well-formed flowers of fine texture in a striking velvety violet-blue, with dark centers.

GIANT LAVENDER. A pleasing shade of lavender with but slight variation. Flowers of fine texture are borne well above the foliage on strong, stiff stems.

GIANT RED. Same type as preceding, with flowers in shades of red.

MAPLE LEAF, VIOLET JEWEL. Maple Leaf type with the same heavy foliage and large flowers. Rich p. rple.

SUPER MAPLE-LEAF GIANTS. Distinct variety with heavy foliage and flowers 4 to 5 inches across, of good substance. A mixture made up of many colors and color combinations. Stems are long enough to make it desirable for cut-flower purposes. Regular Size Plants, \$1.00 per 100, \$7.00 per 1000; Large Size Plants, \$1.50 per 100, \$10.00 per 1000.

Plants, \$1.25 per 100, except where noted

PITZONKA'S PRIZE MIXTURE OF PANSY PLANTS

This Mixture has been selected for those who prefer a variety made up of solid colors, pencil stripes, blotches, and but few of the variegated ones. The plants have the same healthy, robust habit of our Giant-flowering Mixture with the same shapely flowers of uniform size that are good for cut-flowers and bedding purposes. Colors range from shades of red and pink, rich yellow and bronze to orchid, blue, black, and lavender.

LARGE SIZE PLANTS, \$1.50 per 100, \$10.00 per 1000

REGULAR SIZE PLANTS, \$1.00 per 100, \$7.00 per 1000;
5000 or more, \$6.00 per 1000

SEED, 1/4oz. \$3.25, 1/2oz. \$6.25, oz. \$12.00

STANDARD NAMED PANSIES *In Separate Colors*

Alpenglow. Cardinal shades, with dark blotches.

Blue Boy. Clear and pure silvery lilac. A bed of this variety gives an effect of striking beauty.

Bronze. Peculiar shades in bronze.

Giant White. Pure white flowers somewhat larger than Snow Queen.

Golden Yellow. Rich yellow with a large brown eye.

King of Blacks. The nearest to black in Pansies.

Lake of Thun. True splendid ultramarine-blue. The most beautiful of all blue Pansies. An exact duplicate of the Emperor William with much larger flowers. Makes an excellent combination when used with Yellow Master.

Lord Beaconsfield. Deep purple-violet shading off in the top petals to a white line. Excellent for planting on graves.

Royal. Deep purple; very pretty.

Yellow Master. A pure golden yellow—the same color as Golden Queen but the flowers are somewhat larger and of better form.

LARGE SIZE PLANTS, \$1.00 per 100, \$8.00 per 1000

REGULAR SIZE PLANTS, 70 cts. per 100, \$5.00 per 1000

We do not supply less than 100 plants of any one color. 250 at the 1000 rate

VIOLAS (*Tufted Pansies*)

All varieties in this list are adapted for bedding purposes, and are almost indispensable for Spring gardening. Various colors can be selected to work out extremely interesting color schemes.

Recent Viola Novelties

ARKWRIGHT RUBY. Large-flowered type. Color a beautiful bright rosy crimson, with terra-cotta shadings, an outstanding fragrant variety.

CHANTREYLAND. We offer Chantreyland instead of Apricot Queen, as it is a more decided apricot, a heavier grower, with larger flowers and longer stems.

FLORARIENSIS. Mottled blue and white flowers appear in profusion in April and continue through the Summer.

YELLOW GEM. Another large-flowered, deep pure yellow. Plants robust and very free flowering.

Small-Flowering Varieties

BOWLE'S BLACK. Upright plants are literally covered with small purple-black flowers with a tiny eye of gold. Flowers during the entire season.

BOSNIACA. Deep red. Dwarf, free-flowering plants, excellent for rockeries and edgings as they bloom the entire season.

JOHNNY-JUMP-UP. The old popular favorite with its small Pansy faces in variable combinations of purple, blue, and yellow. Blooms all Summer.

Above Violas, plants, \$1.50 per 100, \$10.00 per 1000

Violas You Should Grow

Admiration. Deep violet. Well named because of its beauty.

Blue Perfection. Light blue with yellow eye. A very free-flowering variety.

Lutea Splendens. Rich golden yellow. Lovely when used with the blue varieties.

White Perfection. Clear white. One of the most desirable sorts.

Mixed Varieties. For this mixture we grow many different varieties, so there may be a wide range of color. A hundred plants will make a gorgeous showing.

Plants, 70 cts. per 100, \$5.00 per 1000

Not less than 25 plants will be furnished in any one color. 250 at the 1000 rate

All of the Pansies shown in the picture below, taken at the New York World's Fair, were Pitzonka's Pansies.

This order for 400,000 Pansy plants was placed with us because Landscape Architects and Gardeners know that Pitzonka's Pansies are dependable.

Bellis or English Daisy

ENGLISH DAISIES {*Bellis perennis*}

Especially adapted for bedding, for edging borders and pools, and extremely desirable for giving touches of color to the rock-garden in early Spring. In moist, shady places they will continue to bloom well into the Summer. The plants should be mulched lightly in sections of the country where the ground freezes. Cultural directions same as for Pansies.

Longfellow. Rose color. Free blooming, but the flowers are smaller than those of the Monstrosa strain.

Monstrosa. Surpasses all others in vigorous growth and extra-large, double flowers. We offer Monstrosa **Dark Rose, Rose, White, and Mixed Colors.**

Monstrosa tubulosa, Etna. Quilled flowers which are slightly smaller than the other Monstrosa varieties. The color is a beautiful dark red.

Above English Daisies, Plants, 50 cts. per 100, \$3.50 per 1000;
5000 or more, \$3.00 per 1000

Crispa Cherry. *Novelty.* A compact, button type producing bright cherry-red flowers $\frac{1}{2}$ to $\frac{3}{4}$ inch in diameter, on 6-inch stems. A very profuse bloomer. Plants, 70 cts. per 100, \$5.00 per 1000.

Monstrosa, Crimson. *New.* Very large; deep crimson. Plants, 70 cts. per 100, \$5.00 per 1000.

FORGET-ME-NOT {*Myosotis*}

One of the old familiar garden plants adapted for bedding or for edgings in connection with pansies and Spring-flowering bulbs. *Myosotis* is a biennial, so plants set this Fall will bloom next Spring. It is advisable to give the plants slight protection during the Winter.

Alpestris, Victoria. Large clusters of azure-blue flowers. Plant bushy in habit. 6 in.

Alpestris, Victoria, Indigo Blue. Similar in form to the preceding but the flowers are deeper blue.

Alpestris, Victoria, Rose. Rose. Type as above.

Robusta grandiflora. Clear blue flowers on stems about 10 inches long. The plants are extra-strong growers.

Plants, 70 cts. per 100. \$5.00 per 1000

250 plants are sold at the 1000 rate

Border of Aquilegias

Hardy Perennial Plants

All of our plants are transplanted field-grown and from 1 to 3 years old, according to the time it requires to produce a good strong plant. The varieties listed are the kinds most commonly used, covering a choice of plants for hardy border and rock-garden planting.

The plants that are adapted for rock-garden planting are preceded by a ©

⊙ **Muralis.** Dwarf and covered abundantly with bluish purple flowers in June and July. The ideal plant for the stone wall and rock-garden..... 1 80 15 00

Persicifolia grandiflora alba (Peach-leaved Bellflower). A noble border plant with splendid spikes of large, bell-shaped, pure white flowers from June to August. Good for cutting. 2 to 3 ft.. 1 20 10 00

Persicifolia grandiflora cærulea. An excellent companion to the white variety..... 1 20 10 00

⊙ **Rotundifolia** (Blue Bells of Scotland). Its delicate blue, pendent bells are very attractive if planted high among the rocks. June to August. 1 ft..... 1 20 10 00

CARNATION

Grenadin, Pink. An attractive rose-pink that fills a great variety of uses as a cut-flower..... 90 7 00

Grenadin, Red. Bright red..... 90 7 00

Grenadin, White. Pure white. 90 7 00

Grenadin, Mixed. Various colors..... 90 7 00

CATANANCHE

⊙ **Cærulea.** Heads of pretty deep blue flowers on 1½-foot stems. Profuse bloomer and an excellent cut-flower. July, August, and September..... 1 00 8 00

The plants that are adapted for rock-garden planting are preceded by a ⊙
5 plants are sold at the 10 rate and 25 at the 100 rate

CENTAUREA • Knapweed

	10	100
Dealbata. Large, striking rose-pink flowers. June and July. 2 ft.	\$1 00	\$8 00
Macrocephala. Large, thistle-like golden yellow flowers. Useful for cutting and showy in the border. Blooms in July and August. 3½ ft.	1 20	10 00
© Montana (Perennial Cornflower). Grows about 2 feet high, bearing its numerous, tuft-like violet-blue flowers from July to September.	1 00	8 00

CERASTIUM • Snow-in-Summer

© Tomentosum. Desirable, low-growing plant with silvery foliage and white flowers in May and June. Suitable for rockery or for carpeting dry, sunny spots or covering graves. Can also be used effectively in carpet bedding.	1 00	8 00
--	------	------

CHEIRANTHUS

© Allioni. A beautiful rock-plant. Dazzling, fiery orange flowers on stems about a foot high. Best used as a biennial as it frequently blooms itself to death.	90	7 00
Golden Bedder. Deep golden yellow, sweetly scented blooms.	90	7 00

CHRYSANTHEMUMS, HARDY

Aladdin. This early-flowering variety has proved extremely valuable under good growing conditions, flowering freely from early August on. The color is an attractive shade of bronze.	1 20	10 00
Amelia. The dwarfest of Mums—not over 10 inches high. Completely covered with pink blossoms so that the plant resembles an azalea. Also called “Pink Cushion.”	1 00	8 00
Barbara Cumming. Attractive, large flower of the Decorative type, 3 inches across and clear yellow in color, shading to orange-bronze toward the center. From late August to late October. Vigorous and branching, attaining 2 feet.	1 00	8 00
Crimson Splendor. A single variety producing rich crimson-maroon flowers with deep garnet tones and having prominent golden centers. Blooms fully 4 inches across. September. 2 ft.	1 00	8 00
Early Bronze. Extremely early variety in a lively bronze-yellow color. Flowers freely from late August on. 1 ft.	1 00	8 00
Frances Whittlesey. Rich bronze and garnet flowers from late September on. Habit is stocky and dwarf, averaging 1½ feet in height.	1 00	8 00
Glory of Seven Oaks. Soft but clear yellow masses of bloom have made this a great favorite. August. Medium height.	1 00	8 00
Granny Scovill. <i>Novelty.</i> (1934 introduction.) A lovely, large flower fully 4½ inches across and of nice, fluffy form. The color is a warm coral-bronze. Dwarf and branching growth with fine healthy foliage. Not too hardy but sufficiently outstanding in other respects to merit additional Winter care. In full bloom October 10. 2 ft.	1 50	12 00
Gypsy Girl. Single; crimson shading to chestnut-crimson. Early October.	1 00	8 00
Jean Cumming. Large flowers of purest white, with the softest yellow and blush shading at the center of the buds. Growth erect and wiry; height medium. Flowers September 15. The best white variety to date.	1 00	8 00
Jean Treadway. Large flowers, fully 3 inches across, of perfect Decorative formation. Opens rose-pink and ages to soft lilac-pink, shading to white. It is more attractive than the description would imply. Medium height and very free. In full flower September 30.	1 20	10 00
Judith Anderson. Nicely formed, well-rounded, button-type flowers, 1½ inches across, clear butter-yellow in color. Very desirable for massing or edging. Dwarf habit.	1 00	8 00
King Cushion. Identical with Amelia excepting that the flowers are deep bronzy salmon with a suffusion of rose.	1 20	10 00

NEW KOREAN HYBRID CHRYSANTHEMUMS

A new race of hybrids which has been developed from *C. coreanum*. A distinct type that adds new color, new interest, new hardiness, and promises to be especially valuable in sections where winter-killing has been a serious objection. They will prove valuable for cut-flowers as well as for color-effect in the garden.

Introductions of 1938-39

Saladin. Oriental red, shading to coral-red, with coppery tones showing on the petal reverse. The 3-inch flower is substantial, having four rays of petals. October 10. 2½ to 3 ft.....	10	100
	\$2 30	\$20 00
The Moor. Fully double flowers in an intense, brilliant amaranth-purple, or port-wine-red. October 1. 2 ft.....	1 80	15 00
Venus. Wiry, branching stems carry a profusion of lilac-pink flowers. September 20. 2½ to 3 ft.....	1 50	12 00

Introductions of 1934-35

Daphne. Single daphne-pink flowers, 3½ inches in diameter, with an underlying sheen of lilac-rose. October 12. 2 to 2½ ft.....	1 00	8 00
Ceres. Old-gold, chamois-yellow, and soft coppery bronze; single. October 10. 2 to 2½ ft.....	1 00	8 00
Apollo. A sparkling combination of bronze, red, and gold, suffused with glowing salmon; single; 2 inches across. October 10. 2½ ft.....	1 00	8 00
Diana. Chatenay-rose-pink, mingled with lilac-rose and soft salmon. Triple rays of petals. October 12. 2 ft.....	1 00	8 00
Hebe. Soft lavender-pink; single; 3 inches across. Late September. 2½ ft.....	1 00	8 00
Vulcan. Double rows of petals open carmine-red, aging to bronze-crimson. October 5. 2½ ft.....	1 00	8 00

Introductions of 1936

Aphrodite. The color is a soft tint of pink in the opening flowers, changing to ivory-white, with the slightest mingling of delicate pink in the fully developed, single, gerbera-like blossoms. 3 to 3½ inches across. October 5. Height, 2 ft.; spread, 3 ft.....	1 50	12 00
Fortuna. Ox-blood-red flowers measuring 3 to 4 inches across. Of medium height and striking appearance.....	1 50	12 00
Hestia. Semi-double flowers of delicate rose-pink.....	1 50	12 00
Niobe. Of dwarf, compact habit, producing clear white flowers with yellow discs.....	1 50	12 00
Saturn. Brilliant, sparkling orange and bronze, enhanced by a soft orange ring or halo surrounding the golden yellow center. Single flowers 3 inches across. October 5. 2½ to 3 ft.....	1 50	12 00
Thalia. Lovely duplex flowers of a lively orange shade.....	1 50	12 00
Vesta. Deep golden orange flowers of duplex form.....	1 50	12 00

New Korean Double Types

Indian Summer. Vivid, glowing orange. The unfurled central petals add a luminous golden orange reflection that immediately captures attention. Flowers 3 inches across, many petaled, and somewhat shaggy. October 15. 2 to 2½ ft.....	1 50	12 00
Romany. Between carmine and nopal red. In effect it is a soft, glowing red with bronze tone, full double. October 5. 2½ ft..	1 50	12 00

Introductions of 1937—Double Types

Ember. A brilliant glowing bronze. Blooms are not too double and of excellent form. October. 2½ ft.....	1 80	15 00
King Midas. The flowers average 4 inches in diameter, are fully double; soft yellow with the faintest bronze shadings. 2½ ft..	1 80	15 00

Introductions of 1938—Double Types

Caliph. Ox-blood-red with a rich velvety sheen so prominent that it stands out among all other Mums of this color. Remarkably free in flowering and a real advance. October 10. 2½ ft.....	2 30	20 00
Mandarin. Coral, salmon, copper, and bronzy gold blend to a delightful combination. Perfectly formed double flowers, 2½ inches across, are carried profusely on erect, wiry stems. The plant is compact in habit and somewhat dwarf. October 10. 2 ft.	2 30	20 00
Symphony. Mauve-rose overcast soft coppery rose, with the sheen of a damask silk. Large, nicely formed flowers 3 inches across. October 10. 2½ to 3 ft.....	2 30	20 00

COREOPSIS, Double-flowered

Double Sunburst. The recent introduction that has created a sensation. Large flowers with several rows of petals. Better described as a semi-double. A rich deep yellow. 3 ft.....\$1 00 100 \$8 00

DELPHINIUM • Hardy Larkspur

Belladonna, Blue Grotto. *Novelty.* This has the wonderful characteristics of Belladonna Improved, but the flowers are a most intense and brilliant deep indigo-blue. Fine for garden display and cutting. Different blue from the Bellamosum.... 1 00 8 00

Belladonna Improved (Cliveden Beauty). All experts agree that this strain is an improvement on the original. It is the freest and most continuous blooming of all the Delphiniums. The clear turquoise-blue of its flowers is not equaled for delicacy and beauty. A generous planting should be included in every hardy border..... 1 00 8 00

Bellamosum Improved. This is a rich deep blue form of the popular light blue Belladonna, having the same free-blooming and other good qualities 1 00 8 00

Blackmore & Langdon's English Hybrids. This is indeed a wonderful strain. It has a range of colors well divided in the palest of blue shades to the deepest indigo, with a strong run of the most delicate shades of rose; double and single..... 1 00 8 00

⊙ **Chinense, Blue Butterfly.** A distinct and neat variety growing about 1 foot high with fine, feathery foliage and producing freely large blossoms of rich ultramarine-blue. The rock-garden Delphinium..... 90 7 00

⊙ **Chlnense alba.** Like above, but flowers white..... 90 7 00

Giant Pacific Hybrids. A new strain of hybrid Delphinium. Has wiry, slender stems and a large percentage of the plants have proved decidedly resistant to mildew. Under favorable conditions the plants will reach truly gigantic height. Includes a magnificent range of clear colors as well as pastel shades... 1 80 15 00

Lavender Pastel Shades..... 2 80 25 00

Violet Shades..... 2 80 25 00

Pure White..... 2 80 25 00

Lamartine. A new variety of the Bell donna type with flowers of a glorious rich shade of gentian-blue, each petal illuminated with a shimmering tint of purple. The lips of the white bee also carry this lovely purple tint. It is truly a beautiful flower. Healthy branching plants which are unusually free. 3½ ft.... 1 20 10 00

Summer Cloud. This fine new variety is the best of all whites introduced to date and comes practically 100 per cent true. Of free-flowering habit and exceptionally good for cutting. 4 to 5 ft. 1 00 8 00

Wrexham's Hollyhock. The Wrexham strain grows 5 to 8 feet tall and the spikes have 36 to 40 inches of flowers, hence the name Hollyhock Delphinium. The colors are shades of blue and violet with white, purple, and black-blue center petals, both double and single. A truly magnificent strain..... 1 20 10 00

DIANTHUS • Garden Pink

Plumarius (Garden Pink). Very beautiful, sweet-scented, double, semi-double, and single flowers in great diversity of color 80 6 00

DIANTHUS SPECIES

⊙ **Arvernensis.** A beautiful, rose-colored Pink from the mountains of France; fragrant; 2 to 3 inches across..... 1 20 10 00

Beatrix. *Novelty.* Large clusters of light salmon-pink flowers. Blooms from May to frost..... 1 20 10 00

⊙ **Deltoides** (Maiden Pink). A beautiful little prostrate plant with narrow leaves and bearing a profusion of small crimson flowers during June and July. Easily grown in rockery..... 1 00 8 00

Deltoides erecta. Upright-growing, non-creeping form of the common *D. deltoides*. Grows into compact tufts which in early Summer are smothered under hundreds of small brilliant crimson flowers. Foliage fine throughout the year..... 1 20 10 00

Furst Bismarck. Bright crimson-pink; perpetual flowering. May to November..... 1 00 8 00

PHLOX DECUSSATA • Hardy Phlox

Antonin Mercier. Delicate lilac-blue of medium height. One of the best of the lilac shades.....	10	100
	\$1 00	\$8 00
Attraction. Full, large heads of deep salmon-pink overlaid with an orange glow; crimson eye. A strong grower of medium height.	1 20	10 00
Baron von Dedem. Bright orange-red.....	1 20	10 00
B. Comte. Tall-growing, with large heads of rich, satiny, very brilliant amaranth flowers.....	1 00	8 00
Caroline Vandenberg. One of the most attractive lavenders. A true lavender-blue with large individual flowers.....	1 20	10 00
Count Zeppelin. Pure white flowers with vermilion-red eyes..	1 20	10 00
Daily Sketch. This variety possesses compelling beauty. It is vigorous in growth and reaches a height of about 3 feet. Flower trusses are enormous and individual florets are extra large. The color is a salmon-pink with a vivid crimson eye. A splendid and worth-while English novelty.....	1 20	10 00
E. I. Farrington. Good, soft salmon-pink, with lighter eye....	1 00	8 00
Enchantress. Bright salmon-pink, dark eye. Vigorous grower with rich, glossy foliage.....	1 00	8 00
Ethel Pritchard. A delightful French mauve Phlox which, if seen on a cloudy day, looks almost as pale blue as our native <i>P. divaricata</i> . A strong grower, flowering freely, and should be planted with white or yellow flowers to look its best.....	1 20	10 00
Feuerbrand (Fireglow). Brilliant orange-scarlet, sometimes almost vermilion. Medium height and one of the most brilliant Phlox known.....	1 20	10 00
General Petain. Large, beautiful, wine-red flowers.....	1 00	8 00
George Stipp. <i>New.</i> Deep, glowing salmon with shaded lighter eye. Very outstanding. Does not fade. 2½ to 3 ft.....	1 20	10 00
Hauptmann Koehl. Dark blood-red; large clusters on strong, tall stems.....	1 00	8 00
H. B. May. Very large, lilac-rose flowers in good-sized clusters..	1 20	10 00
Leo Schlageter. Seldom has one seen a shade of red such as is produced by this fine new Phlox. The brilliant scarlet blooms seem to glow with fire, an impression that is heightened by the fact that they seem to have a decided orange cast. Of splendid habit. The best red Phlox in existence today. 3 ft.....	1 20	10 00

PHLOX DECUSSATA, continued

Miss Lingard. Pearly white with delicate pink eye. Produces two or three crops of flowers during the season and is indispensable as a cut-flower for home use.	10	100
Mrs. Jenkins (Independence). Pure white. Late flowering. Grows very fast and is of medium height. For mass planting. . .	\$1 20	\$10 00
Mrs. Milly van Hoboken. An excellent new variety. Very large florets of bright pink with a slight and delicate mauve suffusion. Strong grower.	1 00	8 00
Painted Lady. Flowers silver-pink with salmon shadings and cherry-red eye. Tall.	1 20	10 00
Rheinlander. Beautiful salmon-pink with claret-red eye. Individual trusses of immense size.	1 00	8 00
Saladin. A most brilliant scarlet-red with blood-red eye, makes this one of the most outstanding varieties. It is a strong grower, blooms freely, has good foliage.	1 20	10 00
Salmon Glow. Lovely flame-pink with salmon shadings, softened with lilac and white tints at center, the effect being rich salmon. A fine new Phlox.	1 50	12 00
Thor. We consider it one of the best. A shade of deep salmon-pink overlaid with a scarlet glow; small, aniline-red eye.	1 00	8 00
Tigress. Vigorous, upright grower, with immense trusses of brilliant orange-scarlet flowers. The trusses are huge pyramids which are built up by long-branched laterals, giving an unusually long period of bloom.	1 20	10 00
Von Lassburg. A splendid, midseason, tall, white variety. Trusses large and stems good. Very free flowering. Fine for the back of the border.	1 00	8 00

PHLOX SPECIES

◎ Amoena. One of the best varieties for carpeting the ground, the rockery, or the border. It grows but 6 inches high, and in the Spring is a sheet of rich bright pink flowers.	1 20	10 00
◎ Divaricata canadensis. One of our native species, which is worthy of extensive planting, commencing to bloom early in April and continuing through May, with large, fragrant, lavender flowers on stems 10 inches high.	1 00	8 00

PHYSOSTEGIA • False Dragonhead

Rosy Spire. New False Dragonhead with splendid spikes of rosy crimson flowers in September. It is much taller than its parent, Vivid, reaching 3 to 3½ feet, and furnishes lovely Fall color for the border and fine flower-spikes for cutting.	1 20	10 00
Virginica. Spikes of delicate pink flowers during the Summer months. 3 to 4 ft.	90	7 00
Virginica, Vivid. Brilliant pink, very desirable for medium border and in vases makes a fine flower to decorate the home. . .	90	7 00

PLATYCODON • Chinese Bellflower

Grandiflorum. Large, showy, deep blue flowers on 20-inch spikes are produced all Summer. A splendid plant for the hardy border or among shrubbery.	90	7 00
Grandiflorum alba. White form of above.	90	7 00
◎ Grandiflorum Mariesi. A beautiful dwarf species with broad, thick foliage and large, deep violet-blue flowers on 12-inch stems in great profusion throughout the entire Summer. Plant in front of the border or in the rock-garden.	90	7 00
Grandiflorum praecox giganteum. An extra-early flowering variety with magnificent blue flowers measuring as much as 4 inches across. The sturdy plants bloom profusely from August until frost. 2½ ft.	1 20	10 00

PLUMBAGO

◎ Larpentæ. One of the most desirable border and rock-plants. It is of dwarf, spreading habit, growing 6 to 8 inches high, covered with deep blue flowers during late Summer and Fall.	1 20	10 00
